

## **Genesis Global School hosts the first ever biggest science festival in Delhi NCR**

**Noida, March 08, 2014:** In an endeavor to make science fun, exciting and engaging for young minds Genesis Global School, a premier day-cum-residential school in Noida, hosted one of the biggest science festivals in Delhi NCR, in association with MYCITY4KIDZ, a popular resource website for children. The festival is open to the public between 11:00 am and 6:00 pm on Saturday & Sunday.

The two day festival is aimed at encouraging both students and teachers to inculcate a strong scientific temper in their day to day learning experience. The day-long fest, packed with shows and interactive workshops for children and their families, saw a wide gamut of activities ranging from science competitions and discussions, to presentation and group seminars.

*“The festival is a playground to explain the science behind everything such that children can also explore science through play. Moreover, we have a team of experts from India and abroad who will guide visitors through the festival and introduce them to some unique and exciting activities. The festival will feature workshops on aspects of science and mathematics that children are not exposed to in school”, said Mr. Pramod Sharma, principal, Genesis Global School.*

Highlights of the Genesis Global Science Festival program include spectacular scientific adventures, such as the **Lab of Crazy Scientists**, aimed at triggering the imagination of curious young people. Originally from Ukraine, the Lab of Crazy Scientists is a new model that has been implemented in India to open children up to scientific learning through a diverse range of activities, which include:

1. Slime Polymer Making – An exercise that involves making different items from Polymer. Kids who partake of this activity can take these items home in special glasses and plastic bags
2. Ink for Spy – This activity involves drawing and sketching with invisible chemicals. The drawing is made visible by sprinkling more chemicals.
3. Plasma Lamp – Children light up lamps by touching our magic Plasma lamp. The uniqueness of this exercise lies in the fact that no electricity is used.
4. Love Thermometer – Based on a small device and the laws of physics, this activity is designed to measure how much children love their families.
5. Funky Milk – This activity involves creating hypnotizing patterns on a milk plate just by adding soap and colors.

**The School Fest also offered** a series of hands-on workshops led by expert Makers from the **NASA academy** of future space explorers. These activities revolved around rocket making concepts, space travel and technology to elicit the passion and interest of young people inclined towards astronomy.

Also available at the festival were workshops for primary school children. These included a session, titled, **ZLIFE education**, where kids received exposure to various everyday concepts of science, like temperature, pressure, light, electricity, astronomy, rocketry and chemistry. Other sessions that drew several young people to the mystery of science included activities on a Liquid Nitrogen blast, Dry Ice Space Bubbles and Moon Watch.

#### **About the School:**

Genesis Global School, Noida is a premier day-cum-residential school offering a truly world class campus spread over 30 acres in Noida – Delhi NCR, with super connectivity via a 6 lane expressway. The school has been ranked as the 7th Day-cum-boarding international school – Nationally and 3rd as Day-cum-boarding school – Delhi/NCR by Education World 2013. Hindustan Times C-Fore Survey has also ranked Genesis Global School as 5th across different parameters, from academic rigor to sports.

The school offers an international platform with a perfect blend of technology, modern pedagogy, culture and innovation. Genesis has collaborations with **Clifton College, U.K. and is an Associate member of Round Square**. The School follows both the **National (CBSE) and International Curriculum (IGCSE)**. **The School is also a candidate school for IB (PYP) & (DP)**.

The curriculum is comprehensive and based on core subjects going beyond academic book knowledge but also facilitating development of concepts, ideas and skills. Genesis provides 21 indoor and outdoor sports facilities and plethora of co-curricular activities that have not been offered in School's before. It offers state-of-the-art residential facilities for resident scholars who include extended day school up to 6 pm (day-boarding), Five-day boarding (weekends with parents) and regular Seven-day boarding with a fully equipped Infirmary with a Resident Doctor.
